FOR IMMEDIATE RELEASE

Buffalo Public Schools Selects Infinite Campus Student Information System

HAUPPAUGE, NY (December 12, 2011) - Custom Computer Specialists, Inc. ("Custom"), the Northeast Channel Partner for Infinite Campus, announces that Buffalo Public Schools, which serves almost 35,000 students within the City of Buffalo, has selected Infinite Campus as its student information system (SIS). Infinite Campus was selected as it was the only system to meet all key requirements identified by the district and the only SIS to be considered a top-tier solution four years in a row by market analysts.

A few top priorities for Buffalo Public Schools were:

- A 100% web-based solution granting all constituents access to information anytime, anywhere, on any device
- An inventive and market place leader in student information systems
- A provider with strong experience with the complex New York State reporting requirements

"The Infinite Campus product stood out in that their solution was richer and went deeper in functionality. Their support model is unique in that it utilizes regional companies to provide services and a more intimate relationship. Their training model is rich in online content and customer support portals," said Daniel Marmion, Chief Technology Officer for the Buffalo Public Schools. "Infinite Campus not only exceeded the RFP requirements but also provided a solution and company that is entirely focused on just student information systems. This is a company that a district can feel comfortable to be aligned with for some time."

Buffalo Public Schools implementation, conversion, training and ongoing support will be handled by Custom Computer Specialists' dedicated Infinite Campus team.

"Custom is pleased to have been chosen to partner with the Buffalo Public Schools on this critical project," said Alan Lacher, Custom's Chief Operating Officer. "Our expertise in enterprise systems integration and K12 operations will ensure a smooth transition and provide Buffalo Public Schools with unsurpassed product and service quality."

The Buffalo Public School District plans to go live with Infinite Campus in 2012.

About the Buffalo School District

The Buffalo School District is regarded as one of the premiere urban school systems in New York State. Serving nearly 35,000 students in more than 60 facilities, the district strives to bring exemplary teaching practices and unparalleled opportunities to its diverse student population.

About Infinite Campus www.infinitecampus.com

For over a decade, Infinite Campus has successfully implemented its solutions for customers of all sizes. As the largest American-owned student information system, Infinite Campus applications manage 5 million students in 43 states. Infinite Campus customers range from those with fewer than 100 students to more than 600,000 including school districts, regional consortia, state departments of education and the federal government.
