

Does Your Student Information System Measure Up?

Does your current SIS include:

- Comprehensive built-in functionality, including State Reporting
- Real-time data analysis with visualization
- A single, district-wide SQL relational database
- SIF Agents
- All hardware, including server upgrades
- Implementation
- Training
- Monthly enhancement releases
- Maintenance
- Hosting and backups

Consider the impact your current SIS has on district business operations:

- How stable and dependable is your current SIS provider?
- Do your educators spend too much time on administrative tasks?
- How do these interruptions affect student achievement?

See What's Possible

As the largest American-owned student information system, Infinite Campus has an unprecedented *customer retention rate of over 99%!*

For the fourth consecutive year, the 2010 Gartner Market Scope Report for K-12 Student Information Systems awarded Infinite Campus the highest student information system rating available.

Custom Computer Specialists, Inc., the Northeast Channel Partner for Infinite Campus, provides implementation, on-going management and support services. Custom will partner with your district, supporting your growth and ongoing process improvements.

For years we were 10 separate schools with 10 independent databases. We had no centralized data and each school processed information differently. Now, Infinite Campus is our primary source of information...it is a much more reliable system.

- Rick Cave
Director of Technology
West Windsor-Plainsboro

With our district coming up with more ways to store information in Campus with their standard modules or custom tabs, we are moving towards an electronic copy of a student's portfolio.

- Laurel Podraza
IT Manager
Central Bucks School District

About Infinite Campus

For more than a decade, Infinite Campus has successfully implemented its solutions for customers of all sizes. Today, Infinite Campus applications manage more than 4.5 million students in 43 states. Infinite Campus customers range from districts with fewer than 100 students to those with more than 100,000 as well as regional consortia, state departments of education and the federal government.
