

# A Blended Learning Solution

PERFECT FOR  
THE HYBRID  
CLASSROOM

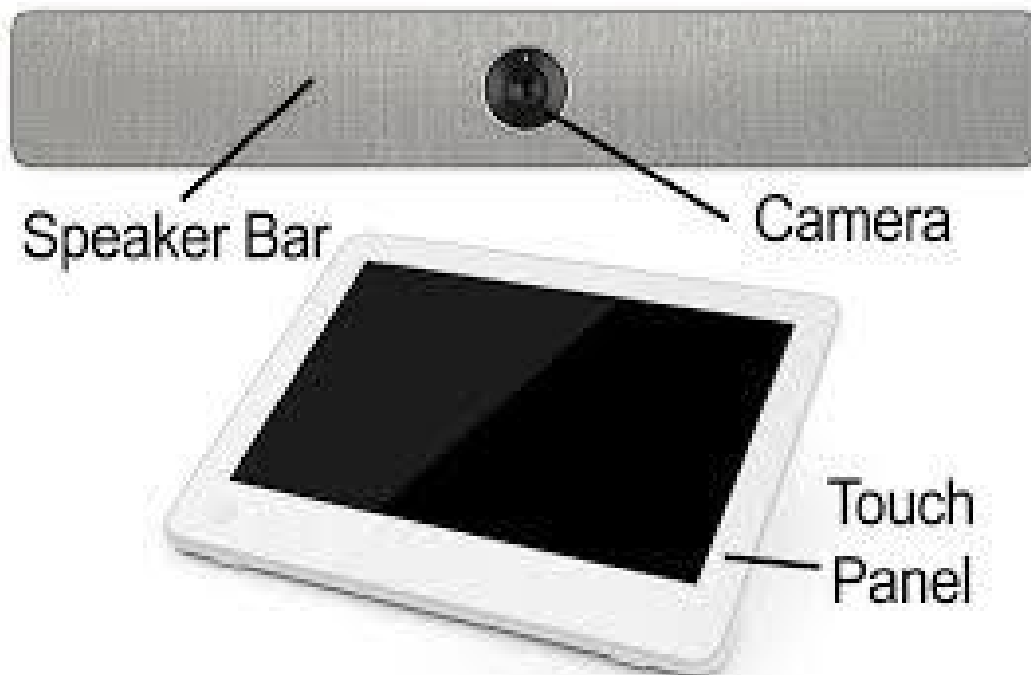

**Custom Computer Specialists**  
Right People. Right Results.®

# BLENDING INNOVATION WITH EDUCATION

Innovative technology can enhance education, but it's important to blend that innovation with the sound principles of education. With this ground breaking solution, education takes center stage, while the technology is the conduit that makes it happen.

Whether a student is in the classroom or remote, this complete solution is designed for the hybrid classroom. With speaker tracking cameras, dual screens, wireless sharing and sophisticated speakers, all students will be engaged, regardless of their location.

#### **The Blended Learning Room Kit includes:**

- Powerful digital zoom cameras
- Professional 4K display for minimal latency
- Sophisticated speaker and amplifier to deliver rich sound
