- Portal Preferences

Benefits

Multilingual Access

Improves accessibility for non-English speaking families.

Information Management

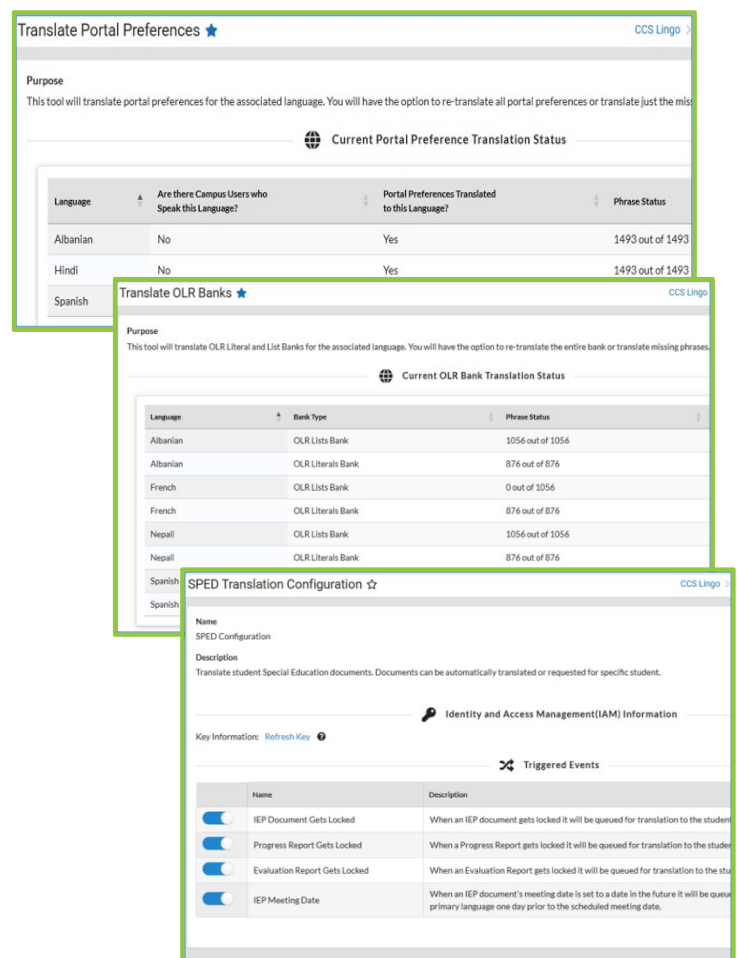

Ensure accurate, consistent communication across platforms.

Efficiency

Streamlines translation management for district staff.

Engagement

Build stronger connections with your community.

The image displays three overlapping screenshots of the CCS Lingo interface. The top screenshot, titled 'Translate Portal Preferences', shows a table with columns for Language, 'Are there Campus Users who Speak this Language?', 'Portal Preferences Translated to this Language?', and 'Phrase Status'. It lists Albanian, Hindi, and Spanish with their respective translation counts (e.g., 1493 out of 1493). The middle screenshot, titled 'Translate OLR Banks', shows a similar table with columns for Language, Bank Type, and Phrase Status, listing OLR Lists Banks and OLR Literals Banks for Albanian, French, and Nepali. The bottom screenshot, titled 'SPED Translation Configuration', shows a configuration page for 'SPED Configuration' with a description and a table of 'Triggered Events' such as 'IEP Document Gets Locked' and 'IEP Meeting Date'.
