

CCS Managed Services

Maximize the Value of your Infinite Campus Investment

CCS Managed Services (CMS) is a Premium Product that gives your district access to the full range of tools, reports, expertise, and dedicated support from Custom Computer Specialists – helping you save time, improve data accuracy, and streamline operations.

Powerful Features

CCS Tool Kit Reports

Exclusive suite of tools and reports not available in the core product.

Unlimited Data Sheet Template Imports

Simplify data management.

Maintenance of All Custom Reports & Integrations

Continuous CCS support.

Rapid Student Identification

Spot trends and pinpoint individual needs in moments.

Seamless Sharing

Securely distribute insights to stakeholders through built-in Campus integration.

Benefits

Fewer Purchase Orders Needed

Simplify your procurement process.

Improved Data Health

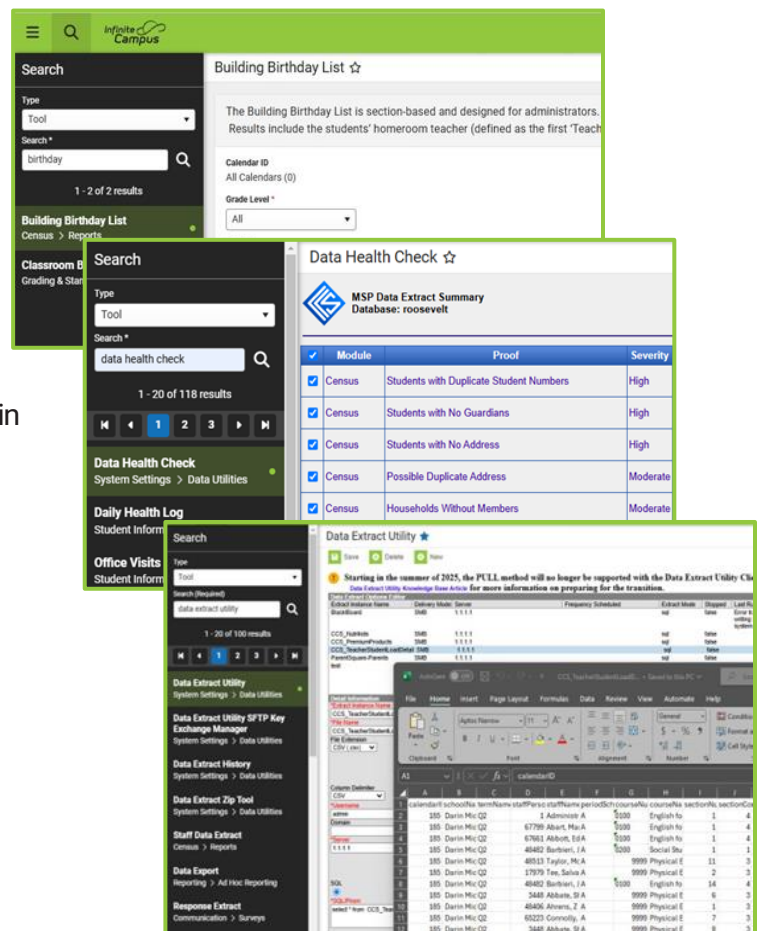

Regular checks for data accuracy and integrity.

Streamlined Workflows

Single rule data uploads for efficiency.

Expert Guidance

Dedicated development, training, and consultative hours.

The image displays several screenshots of the Infinite Campus interface. One screenshot shows the 'Building Birthday List' tool, which provides a list of students and their homeroom teachers. Another screenshot shows the 'Data Health Check' tool, which displays a table of issues categorized by module, proof, and severity. A third screenshot shows the 'Data Extract Utility' tool, which allows users to search for and extract data. The final screenshot shows a spreadsheet view of the extracted data, with columns for student information, course details, and section numbers.

Module	Proof	Severity
Census	Students with Duplicate Student Numbers	High
Census	Students with No Guardians	High
Census	Students with No Address	High
Census	Possible Duplicate Address	Moderate
Census	Households Without Members	Moderate
