CCS RIGHT PEOPLE. RIGHT RESULTS.

IT INTEGRATION NAVIGATOR

Planning | Integration | Execution

THE DEAL IS CLOSED. WHAT'S YOUR 100-DAY IT PLAN?

An acquisition does not end at closing. CCS helps private equity firms, portfolio companies and acquiring organizations turn technology due diligence findings into a practical plan - and execute the work that follows.

A STRUCTURED PATH FROM RISK TO RESULTS

01 **STABILIZE** — DAYS 1-30

Secure operations and establish control.

Prioritize security gaps; validate access, backups, recovery and IT ownership.

OUTPUT: 30-day stabilization priorities

02 **PLAN** — DAYS 15-45

Translate findings into an actionable roadmap.

Align technology standards; map dependencies, budgets, owners and milestones.

OUTPUT: 100-day IT integration roadmap

03 **INTEGRATE** — DAYS 30-100+

Execute critical integration initiatives.

Standardize identity, cybersecurity, Microsoft 365, infrastructure and support.

OUTPUT: Implementation and milestone reporting

04 **OPTIMIZE** — DAY 100+

Build a scalable foundation for growth.

Improve licensing, cloud costs and governance; enable repeatable acquisitions.

OUTPUT: Long-term technology plan

FROM DUE DILIGENCE TO LONG-TERM VALUE

IT Acquisition Navigator identifies technology risks before the transaction. IT Integration Navigator plans and executes the remediation, integration and ongoing improvements after closing.

THE DEAL IS CLOSED. LET'S BUILD WHAT'S NEXT.
